System Overview

Concerned due to the rise in crime against kids in our society in recent years, CP PLUS took an initiative to help the matter. As a result, the stylish and unique range of Kids' smartwatches, famous as EzyTrack, have flooded the market. The EzyTrack smartwatches allow individuals to effortlessly track, monitor, and connect with their children at any time no matter where they may be.

Functions

Touch Screen

EzyTrack's touchscreen interface enables your kids to perform actions through tapping/swiping on the screen. This user-friendly digital watch provides several other features ideal for daily use.

Smart Watch with Camera (Blue)

Functions

GPS Tracking

There is an in-built GPS smart locator that allows you to conveniently track your child's location anytime and anywhere.

Pedometer

Enables you to accurately track kid's movement with a pedometer that counts their number of steps.

SOS

SOS messages can be sent in the case of an emergency. Press the SOS button for three seconds to send an SOS message. Parents will be notified about their child's position, once the SOS alarm is activated.

Two-way Communication

With this important feature you can call on the watch and talk directly and the child can also instantly call his/her parent from the watch itself, which helps in connecting with parents immediately.

Voice Chat

Parents and children can send Voice messages using this feature and can remain in touch throughout the day.

Wi-Fi Support

Supported models of the watch can upload pictures faster and can provide location data over wifi to the Mobile app.

Inbuilt Camera

The smartwatch has useful features such as in-built front and side cameras, which helps in capturing good quality pictures seamlessly.

Take-off Alarm

EzyTrack smartwatches have the take-off detection capability and intelligent alerts for assistance in an emergency. This feature has proven to be highly beneficial.

About CP PLUS

The brand that is on its way to lead the world when it comes to the security and surveillance industry, CP PLUS, keeps bombarding the market with the most reliable range of products that have been designed carefully and methodically to automate the whole surveillance and security process, no matter how big your premises are.

It was the initiative to help the public in the area where they are the most vulnerable and to empower the sense of safety in our hearts that had conceptualized CP PLUS. And embarking on its mission to make the world a safer and more secure place has taken the brand's journey to unprecedented levels even when compared to international competitors.
